Rotary Club Relationship and Understanding of Humanitarian Service Organization

Referral

While Rotary Organizations cannot be a recipient of a solar temple oven, the Rotary Country sponsor is **responsible** to select or help select a humanitarian service organization which they believe will best support the needs of the people in the remote areas of the project country.

1. Rotary Club has a relationship with humanitarian service organization (ie non-governmental organization) that will be supervising the use of the oven. ___ Yes ___ No
2. Please specify the name of the humanitarian service organization:

3. Humanitarian service organization's organizational structure (check only one):
 - International (or a part of international organization)
 - Country Specific
 - Local, community
 - Other (please specify): _____

Rotary Club Commitment

In some countries, a major hurdle for the Temple Solar Project to ensure the delivery of the solar oven to its project site is exemption from duties and taxes. It is essential that your Rotary Club commit to taking the lead in arranging for customs clearance and for transportation from the port of entry to the installation site in your country. Please remember your responses will become part of the Matching Grant to Rotary International.

1. *Will your Rotary Club commit to bringing the ovens through customs in this country?
___ Yes ___ No
2. *Will your Rotary Club provide in country expenses such as local transportation? ___ Yes ___ No
3. Will your Rotary Club assist in managing the humanitarian service organization's feedback reports to Temple Solar during the 30 to 60 days after reaching port in the project country? ___ Yes ___ No
4. Will your Rotary Club assist in managing the humanitarian service organization's feedback reports to Temple Solar during every quarter for 3 years after reaching port in the project country? ___ Yes ___ No
5. Will your Rotary Club promote local publicity and send copies to Temple Solar? ___ Yes ___ No

* *Funding for these efforts can be made available from Temple Solar. However the responsibility for getting the delivery done remains with the local Rotary club.*

PROJECT COUNTRY ROTARY CLUB APPLICATION**

Page 2

6. Will your Rotary Club help identify improvements or needs to Temple Solar for three years regarding the ovens, shipping, set up, oven management and operations, and any ways to improve or assist the humanitarian service organization to optimally utilize the ovens? ___ Yes ___ No
7. At this time, are there any other known fees besides customs clearance fees (such as Value Added Taxes, Port taxes, import fees, etc.)? ___ Yes ___ No If yes, please explain in detail what and how much the taxes are, and how exemption can be arranged:

8. Does your Rotary Club have any current or past Rotary International humanitarian projects?
___ Yes ___ No If yes, please indicate Grant Number and Amount of Project:

Grant Number: _____	Total Funding: _____	Grant Number: _____	Total Funding: _____
Grant Number: _____	Total Funding: _____	Grant Number: _____	Total Funding: _____
Grant Number: _____	Total Funding: _____	Grant Number: _____	Total Funding: _____

9. Temple Solar cannot directly oversee the solar oven operations in each country, rather we rely upon the advice and suggestions from our fellow Rotarian organizations. Typically, each solar oven is a \$14,500 investment. Please answer the following questions regarding safeguarding the Temple Solar investment.

- o Do you think the humanitarian service organization has the management oversight?
___ Yes ___ No If yes, please explain why _____
- o Do you think the humanitarian service organization has the need for the solar oven?
___ Yes ___ No If yes, please explain why _____
- o Is the humanitarian service organization trustworthy to safeguard this investment?
___ Yes ___ No If yes, please explain why _____
